ACTIVITY BOOK

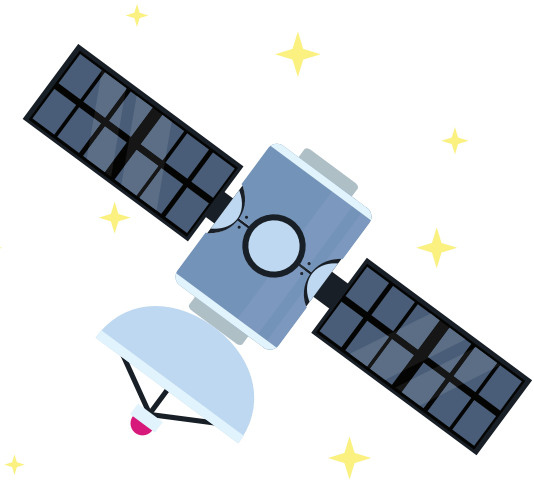

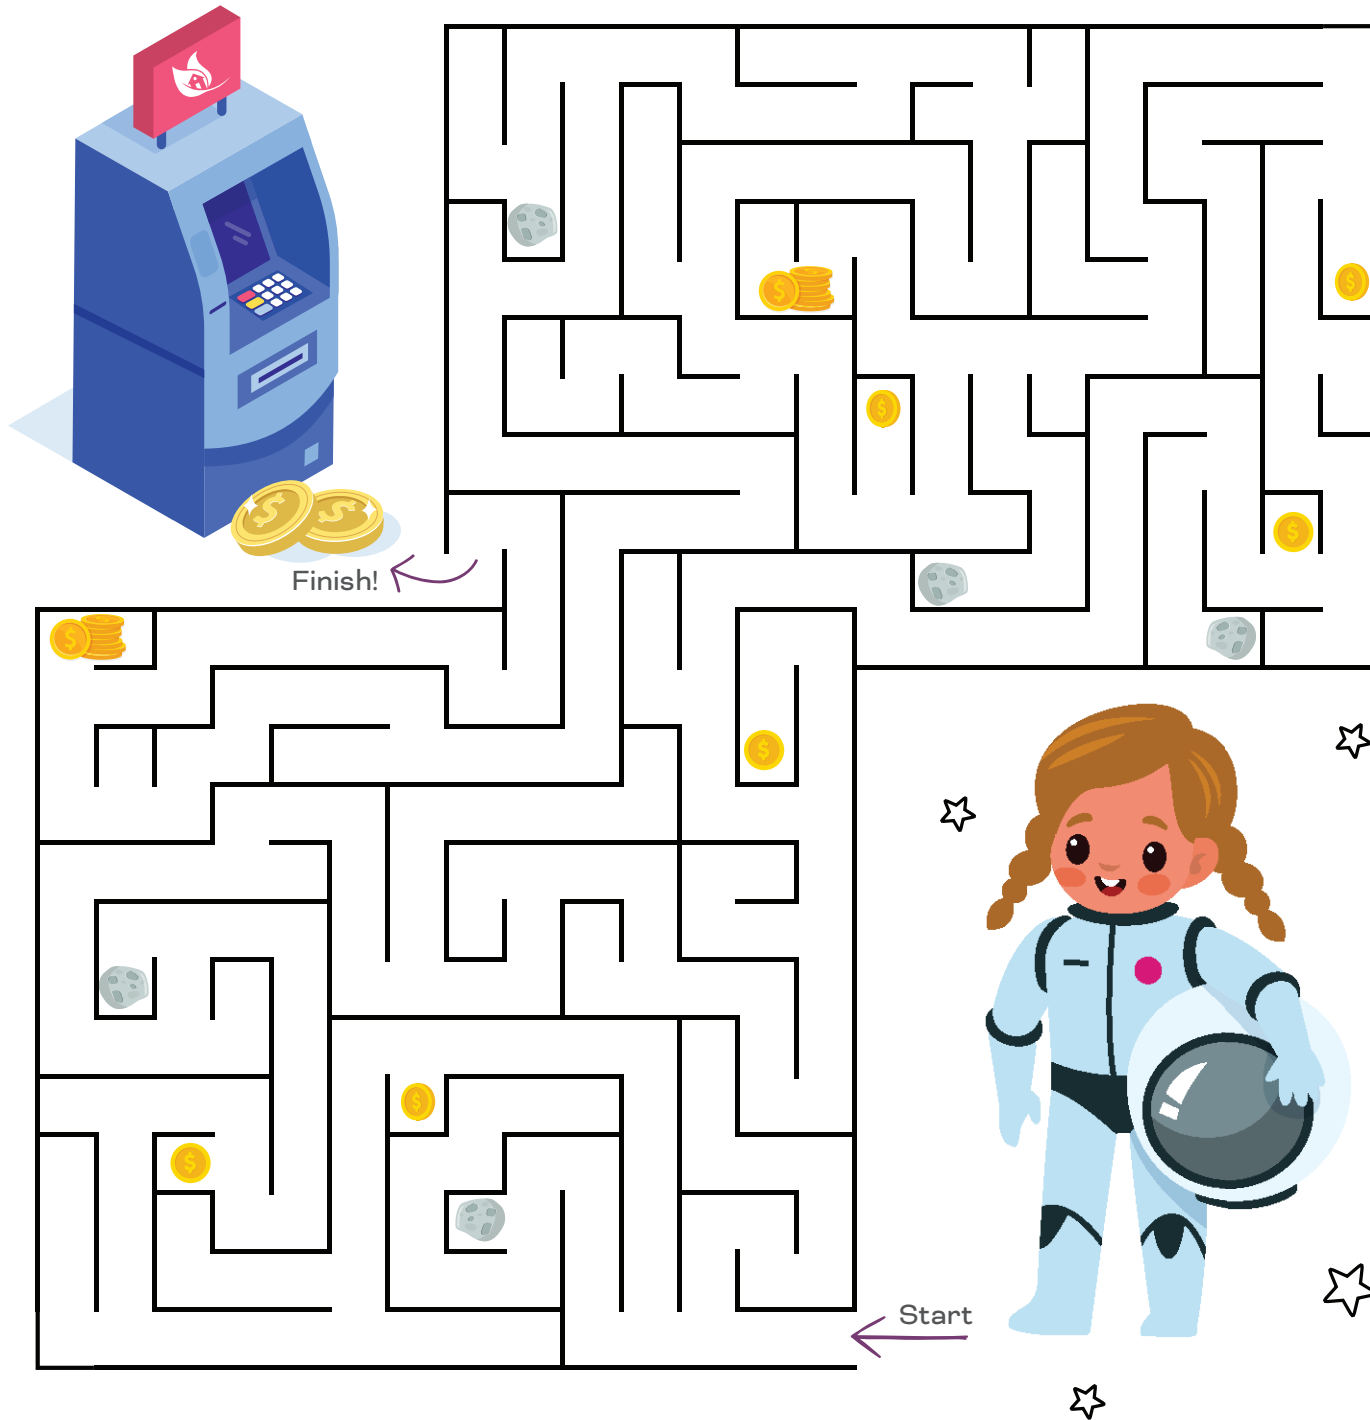

Hi, there! I'm
Neil Credit-strong.

Learning about personal finance is important for tomorrow's cosmic explorers! Join our team by helping my astronaut pals and me complete the 7 missions in this book.

MISSION 1:

Help my **Robo-Dog Liaka** find my shuttle!
Hint: Mine is the only one without an exact match.

MISSION 2:

Mission control needs **Sally Saver** to find her way through the maze and collect coins to fund our next space adventure!

Collect the **coins** along your way and deposit them in the ATM machine at the end. Watch out for moon rocks!

MISSION 4:

Space is limited on our shuttle!

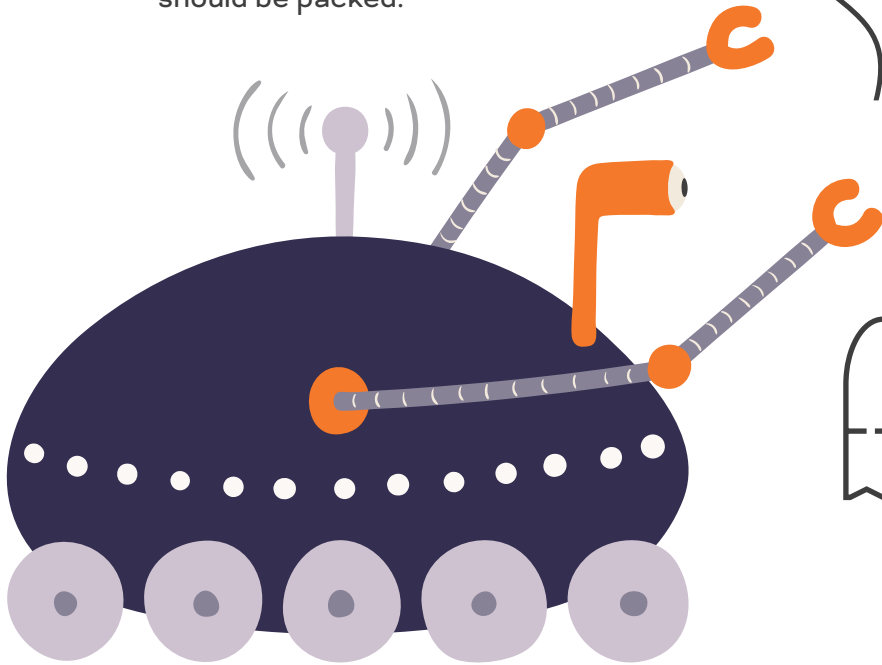

Luna the Moon Rover needs to decide which items to pack on our next mission! Which items are “needs” and which are “wants”?

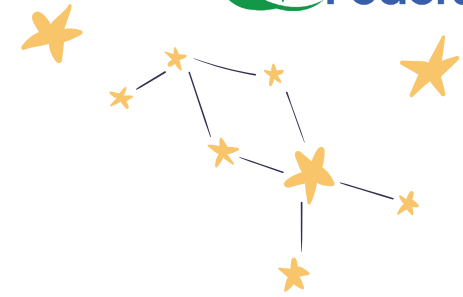

Color the items and circle everything that is a “need” and should be packed.

NEEDS vs. WANTS

things you **must have** to live and be healthy

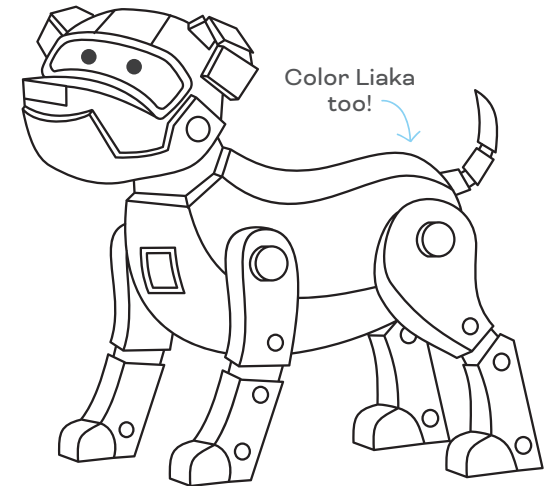

things that are nice to have, but you can actually live without

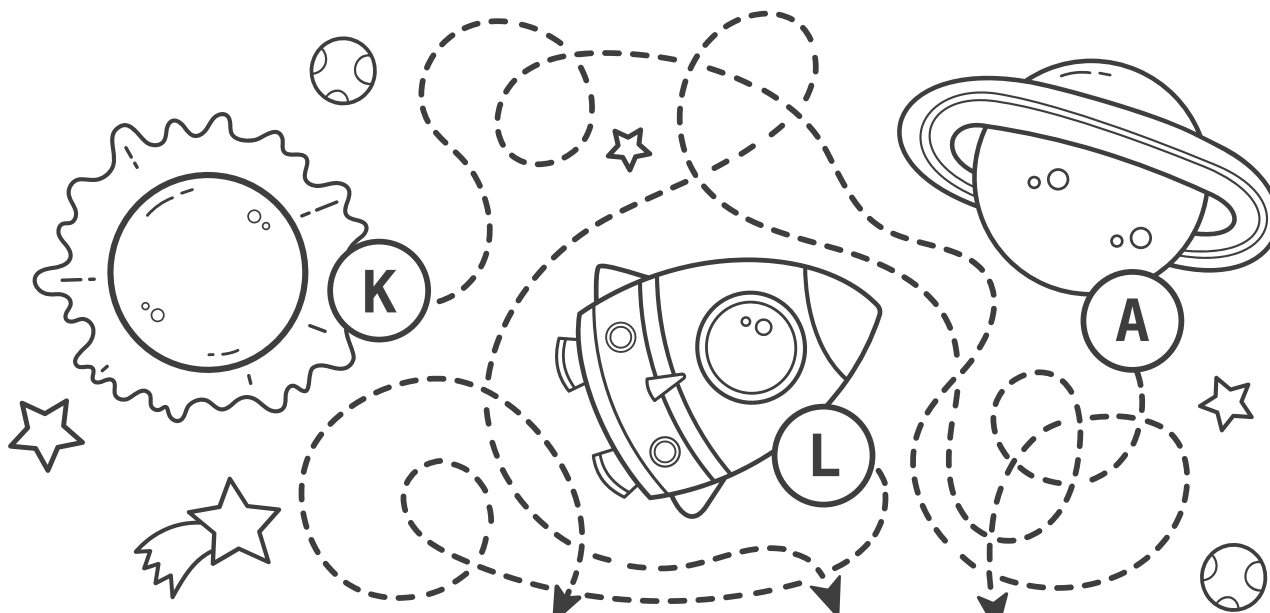

MISSION 5:

Help us out of an
intergalactic mix up!

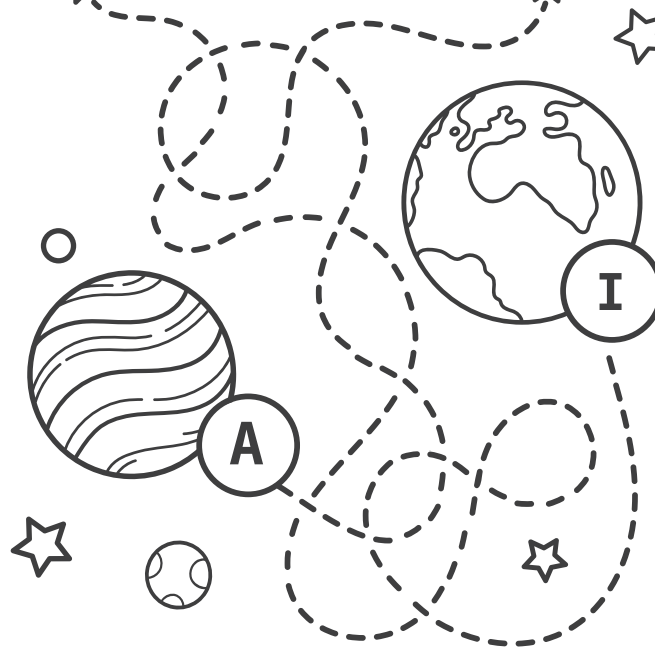

Robo-Dog Liaka

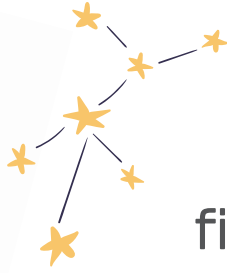

needs to get things back into
order by untangling the orbital
paths and solving the riddle.

What was the name of
the first dog in space?

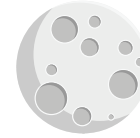

Five empty rectangular boxes for writing the answer to the riddle.

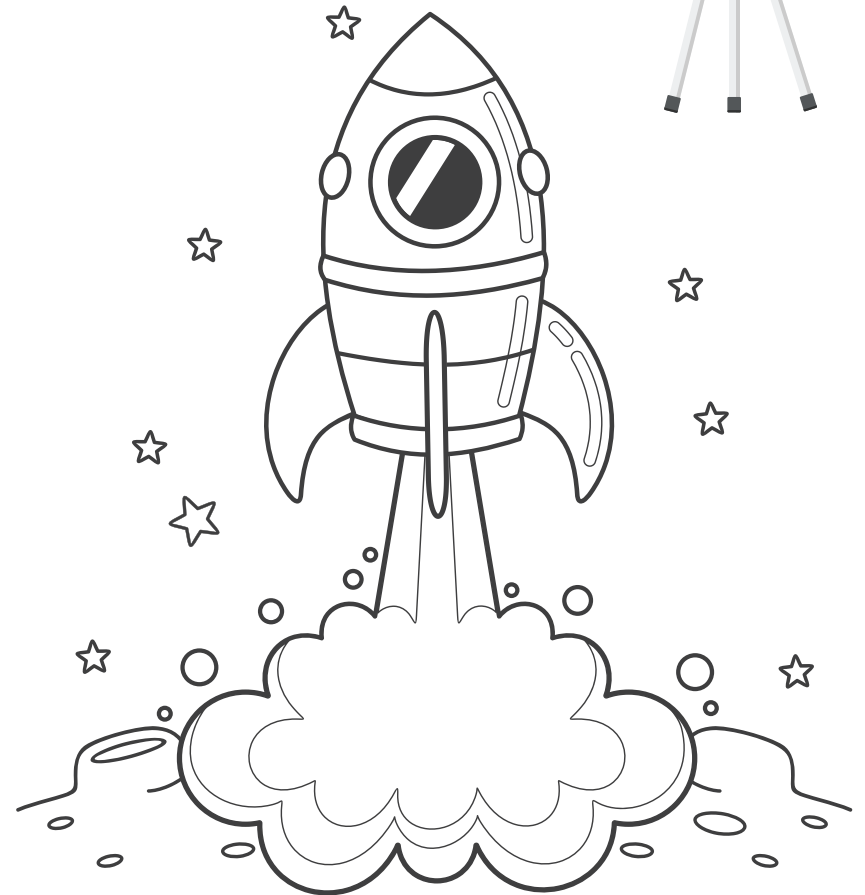

MISSION 6:

Help **Buzz Savin'**
find **7 space glitches.**

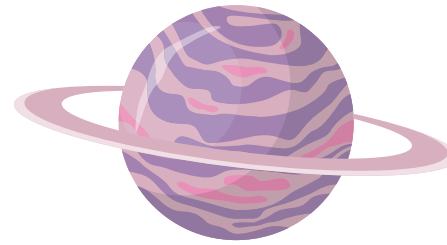

Color the picture and circle what is different between the two sides.

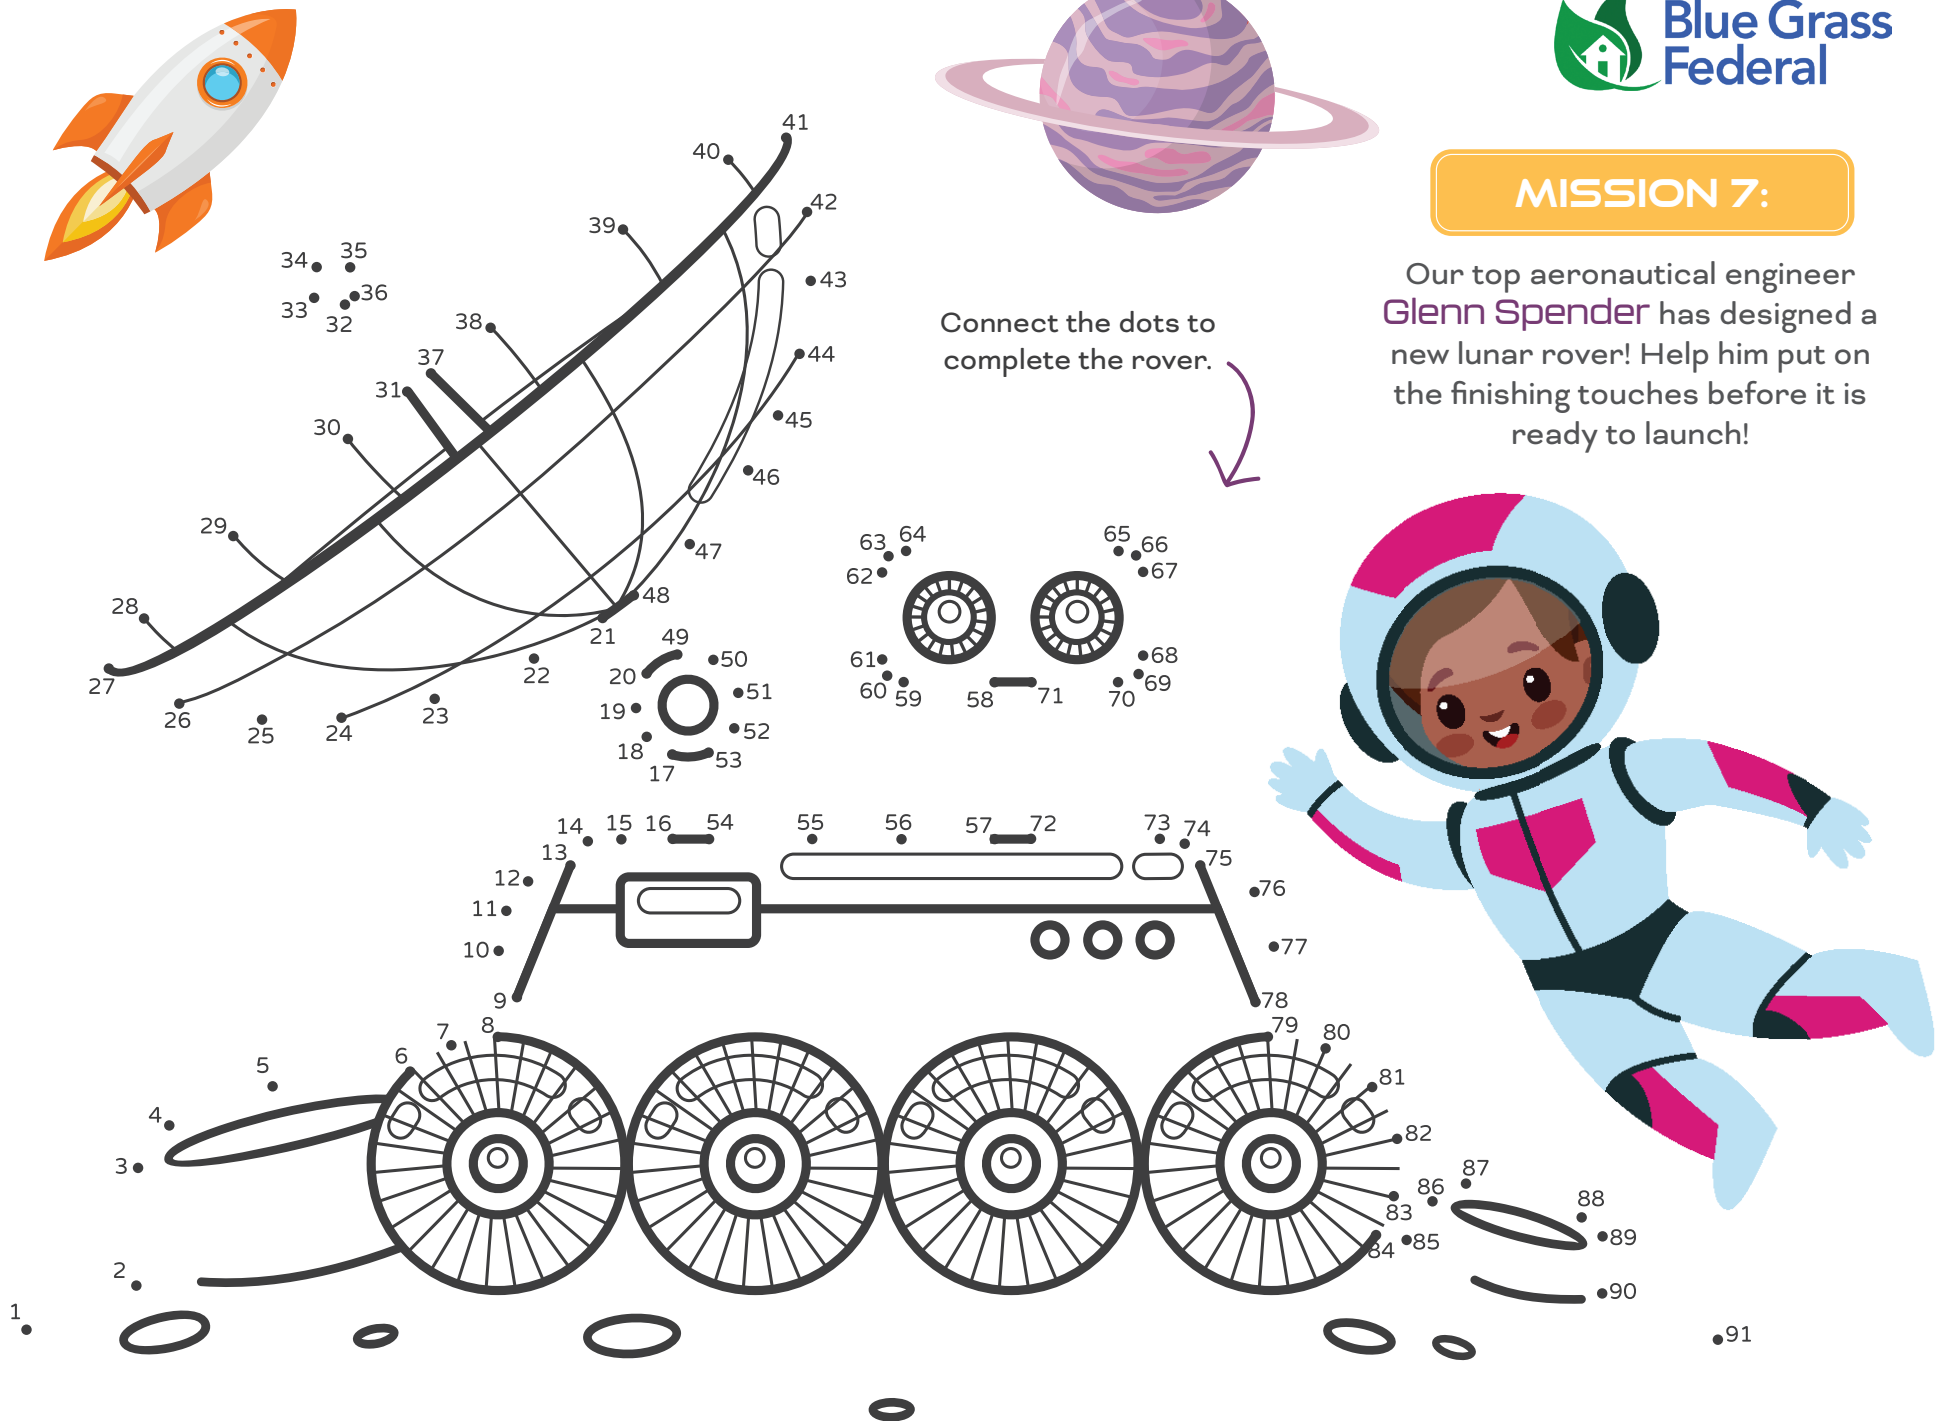

MISSION 7:

Our top aeronautical engineer **Glenn Spender** has designed a new lunar rover! Help him put on the finishing touches before it is ready to launch!

Connect the dots to complete the rover.

**MISSION:
COMPLETE!**

Welcome to the team!

Congratulations, you have completed all 7 missions and you have what it takes to be an out-of-this-world success!

Color by number to see yourself on your first lunar landing!
